

REMARKS

Claims 1-7, 12-13, and 15-90 have been amended to correct informalities. The specification also has been amended to reflect and/or update sequence identifiers where appropriate. No new matter has been added by virtue of these amendments; support therefor being found throughout the specification and in the original claims of the application.

The within amendment is presented in large part, to comply with the sequence rules and correct various informalities. For instance, amendments are presented to remove improper multiple dependencies, correct several instances of misnumbering of claims which appeared in the original claim set, remove other minor informalities and generally to conform the claim set to U.S. patent practice.

Early examination and allowance of the application are earnestly solicited.

Respectfully submitted,

Christine C. O'Day (Reg. 38,256)
